

Digital Transformation in Product Stewardship

Enabling Excellence in Global Regulatory Compliance

Experts in Product Stewardship Digitization

As a leading global EHS&S consultancy, ERM provides Process and Discrete Manufacturing companies with a compelling set of expertise for Product Stewardship digitization.

We combine our Digital Services capabilities with an in-depth understanding of the regulatory landscape, and leading technology solutions, to establish and maintain rigorous enterprise-level Product Stewardship business services.

Our services support:

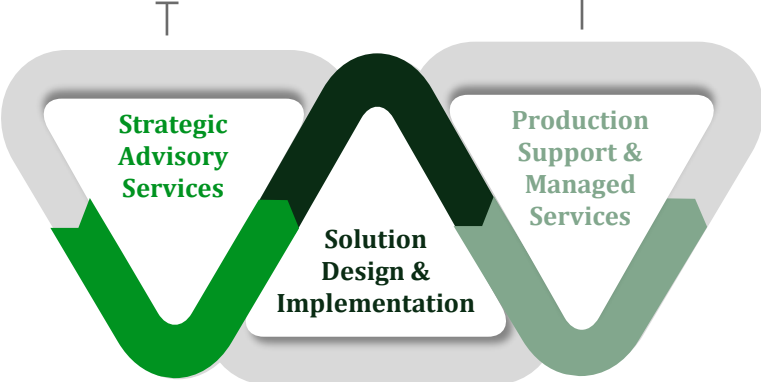

-  Improved operational efficiency
-  Regulatory compliance excellence
-  Integrated decision support & control
-  Risk & cost reduction

Our Offerings

Together, ERM's Product Stewardship and Digital Services Teams uniquely cover the product lifecycle from ideation through end of life. This includes all the operational – SDS, label, dangerous goods, and product compliance / SVT – aspects in between.

- Global Product Stewardship Regulatory & Business Process Consulting
- Solution Strategy, Requirements Development & Adoption
- Deployment Planning & Change Management
- SDS Expert Systems Authoring
- Integrated & Automated Product Compliance Assurance
- Regulatory Monitoring: Data & System Compliance

- Process Automation
- Global Implementation & Support
- Data Management
