

Introducing SustainAbility

# Making the future the cause of our present

► [sustainability.com](https://www.sustainability.com)

# Our vision is a just and sustainable world for present and future generations.

## Who we are

Founded in 1987, SustainAbility's mission is to accelerate sustainable development. Inspiring private sector sustainability leadership is key to building a better economy for present and future generations.

### Working together

We believe in the power and responsibility of businesses, in partnership with government and civil society, to create a prosperous and sustainable economy for all.

### Across the globe

Working internationally with companies of all shapes and sizes, we have offices in London, New York and San Francisco.

### Leading the way

Strong leadership is crucial to evolving and improving business strategies and practices as well as market transformation.

### Today and tomorrow

As we work towards long-term sustainability we strive to deliver meaningful short-term results. The value that we add now enables us to shape the journey ahead.

### We're the experts

Our diverse and global team possesses strong business acumen, first-class facilitation skills and extensive knowledge of sustainability issues and trends. We're thinkers and doers, working diligently without ever losing sight of what we're here to achieve.

# We inspire and enable business to lead the way to a sustainable economy.

## What we do

Our blend of ideas and advice gives you the support necessary to promote change inside your company and across value chains, markets and systems.

- ▶ As your **strategic partner**, we help you make the decisions required to integrate sustainability into your business.
- ▶ As an **independent think tank**, we generate research and advocacy that transforms thinking and motivates you to create your own innovative solutions.
- ▶ As a **global convener**, we facilitate solutions-oriented expert discussions and run the Engaging Stakeholders Network. We empower you to harness stakeholder perspectives and peer learning that drive advances in corporate sustainability.

## What makes us different

### We focus on you

We gauge success by how well our clients adapt to the challenge of building a sustainable economy. We encourage you to exceed your own expectations.

### We're multi-functional

We are a hybrid think tank and advisory firm with decades of experience. We provide the platform you need to develop and refine new ideas that reach beyond what you previously imagined possible.

### We help you push boundaries

We believe that while constructive change can cause uncertainty it also unleashes the best in businesses. We encourage you to think more strategically and creatively about how your products, services and business models will make for a better future.

**We work with leading companies  
around the world and across  
critical sectors of the economy.**
